INNOVATION
starts at
THE DOOR

security doors

**With our designs that combine security and aesthetics,
and thanks to our innovative technologies,**
we offer our user-friendly products to your service while
maintaining our quality at the highest level.

Security
Doors

Designed specifically for you...

Dolphin Doors Limited carefully thinks and puts into practice every detail that the consumer needs exceeding expectations. It continuously aligns with changing habits and behaviors, offering functional and aesthetic solutions in various areas, namely exterior doors, apartment doors, interior room doors, emergency exit doors, and other particular uses.

It executes its innovative works in a flexible way for all sectors, where it produces solutions and works to achieve the best results by considering all factors while implementing its designs. By applying the Quality Management System in accordance with the international certificates it has at all stages of production, It prioritizes quality over time.

Management, design, application, and post-implementation services, and aims to maximize customer satisfaction. With its R&D and design investments, it offers DOLPHIN DOORS-specific innovation and applications for the users. Besides, I use advanced technology in all units and ensure positive results in the product phase; in this way export my product to many countries, such as Europe and the US continent.

The satisfaction of its customers in approximately 50 countries of the world with its expert marketing, sales, and afterward-sales service team; As a global brand, it aims to keep it always at the top with exemplary service and correct guidance.

Security
Doors

Sustainable Environment and Production

For a sustainable environment, our company meets all its energy needs from solar energy panels, thus, the electricity needs of 1.5 million kWh are met from renewable energy.

In this way, we will prevent carbon emissions equivalent to the amount of greenhouse gas that 510.000 trees can reduce.
